

LIVE WEBINAR

# LEVEL UP YOUR UNIT: TRACKING STATS TO REACH GOALS

March 8, 2024 | 1200 - 1300 EST

## COURSE DESCRIPTION

Finding you have to provide justification for anything 'extra' that you want or need? This includes applying for grants, additional personnel, more overtime funding or even expensive new equipment. Statistics are the most efficient way to provide that proof to command staff or other stakeholders. Statistics can also help you make operational decisions that will help your bureau run more efficiently and effectively.

This webinar will cover what types of things stats are useful for, what types of stats to keep, and the best ways to keep stats (Excel, Databases, LIMS). Students will also learn how to best use their stats to justify the needs of their unit.

This webinar is being brought to you via an exciting new collaboration between Gap Science and SuiteLIMS! Keep your eyes peeled for more of our collaborations in the near future!

## WHY CHOOSE US?

Our specialized training and resources bridge the gap between generic leadership courses and traditional forensic technician training, equipping you with the skills and knowledge needed for professional development in your forensic career.

**REGISTER TODAY**

## COURSE LOGISTICS
