

FDIAI-Florida Division of
The International Association For Identification
Secretary-Treasurer, William Schade
4444 Worthington Circle, Palm Harbor, FL 34685

FRANK A. REINHART SCHOLARSHIP FUND

The Frank A. Reinhart Scholarship Fund was established in the memory of Frank Reinhart, a very active member of the association. The purpose of the fund is to award a \$500.00 scholarship to members of the FDIAI as well as to their dependents who are attending a full-time college or university pursuing any course major. Applications may be obtained on the FDIAI website

FDIAI WEBSITE

Visit the FDIAI website at www.fdiai.org for the latest on association business. There you will find membership information, applications, annual conference and school listings as well as job opportunities and contact information for all association officers. You will also find important links to many other association and forensic websites.

Dedicated,

Innovative,

& Professional!

The FDIAl was organized in 1959 and incorporated as a nonprofit organization with two primary objectives:

- To keep its members apprised of the latest techniques and discoveries in forensic identification and crime detection.
- To employ the collective wisdom of the profession to advance the scientific techniques of forensic identification and crime detection.

The FDIAl is the largest state chartered division of the International Association for Identification with over 1,000 members. Although most members are located throughout the State of Florida, many members live in other states as well as other countries.

There are many benefits that go along with your association membership but one of the most important is the privilege of getting free technical assistance from the FDIAl Science and Practices Committee. You will also have the opportunity to meet and become acquainted with leading experts in all phases of scientific crime detection and identification.

ANNUAL TRAINING CONFERENCE

The FDIAl Annual Training Conference is the largest IAI division conference in the country. Every year more than 350 attendees from across the country and around the globe attend our conference. The conference includes informative seminars in several different forensic fields as well as 40-hour workshops in fingerprints and crime scene investigation.

Each year at our conference companies display the newest in forensic technology at more than 50 exhibit booths. Our annual training conference meets the required training for IAI certifications.

The following is a list of subcommittees and different topics presented at the annual conference:

Biometric Identification
Bloodstain Pattern Identification
Crime Scene Investigation
Latent Print Identification
Footwear & Tire Track Evidence
Forensic Photography
& Electronic Imaging
General Forensics
