

A Message from the President

Fellow Members:

Plans are well underway for our 38th Annual Educational Seminar to be held in Palm Beach Gardens the week of October 19th. The Seminar Planning Committee is working very hard on providing us with another exceptional training opportunity. Mark this down on your calendar and make your plans well!

District 6 is being temporarily divided between District 5 and District 9 until a director can be found. The membership in Manatee, Hardee, and Highland counties will fall under District 5 with Bill Schade as its director. The membership in Sarasota, Desoto, Charlotte, and Glades counties will fall under District 9 with Karen Cooper as its director. These directors will be contacting the members in District 6 about upcoming meetings and any other issues that might arise. If anyone is interested in being the director for District 6, please contact me.

A special committee has also been appointed to look into management issues regarding fingerprint identification. The members of the committee are Tom Fadul (Chairperson,) Jennie Ahern, Bill Schade, Karen Bryant, Julie Shoff, Jim Gettamy and Glen Calhoun. They will be involved in a panel discussion at the October seminar and will be looking for feedback from the membership in formulating guidelines for the particular issues that they will be looking at. If you have any suggestions or need further information about this committee, please contact one of the members.

Sincerely,

Deborah L. Fischer

Deborah L. Fischer
President
