

## PRESIDENT'S MESSAGE

Fellow Members:

I attended the International Association for Identification's Annual Educational Seminar in Costa Mesa, California. It was unfortunate that more of our members could not be in attendance and benefit from this experience. A number of I.A.I. members, that are not Florida Division members approached me and made inquiries about our upcoming Annual Educational Seminar. I find this gratifying that the reputation of the Florida Division is held in high esteem.

We have a commitment from Danny Hasty, the President Elect of the International Association for Identification, to be our Keynote Speaker for our Annual Educational Seminar in Tampa, October 22 to 26, 1995. "Be There". Do not miss this training opportunity. As a reminder, it is important to reserve your hotel room early; the conference rate is only guaranteed until September 23, 1995. Even if you don't have your approvals yet, call for a reservation. It will not cost you anything to reserve the space.

Sincerely,

Mallory Frank Shonberger  
President
